IQ MultiProx

El sistema de cerraduras electrónicas off-line IQ Multiprox no requiere cableado, y adopta el sistema de acceso Mifare de Philips para tarjetas de proximidad, realizando las funciones de control de accesos de manera absolutamente segura.

The electronic lock system off-line IQ Multiprox does not require wiring and adopts the Philips access system Mifare for proximity cards, making the access control functions in an absolutely secure way.

Le système de serrure électronique offffline IQ Multiprox ne nécessite aucun câblage et adopte le système d'accès de Mifare de Philips pour cartes de proximité. Il effectue les fonctions de contrôle.

Los cilindros IQ-C de proximidad IQ Multiprox, sustituyen fácilmente y sin ningún tipo de obra ni cableado al cilindro estándar mecánico, reduciendo el tiempo y los costos de instalación.

De este modo tendremos, en un corto espacio de tiempo, los accesos controlados mediante tarjetas inteligentes compatibles con cualquier otro acceso IQ Multiprox, tanto offline como online.

The cylinder IQ-C Multiprox proximity replace easily and without any work or wiring the standard mechanical cylinder reducing the time and cost of installation.

Thus in a short time we will have the access controlled by smart cards compatible with any other IQ Multiprox access both offline and online.

Les cylindres IQ-C de proximité IQ Multiprox, remplacent facilement et sans aucun travail, ni câblage, au cylindre mécanique standard, en réduisant les coûts et temps d'installation.

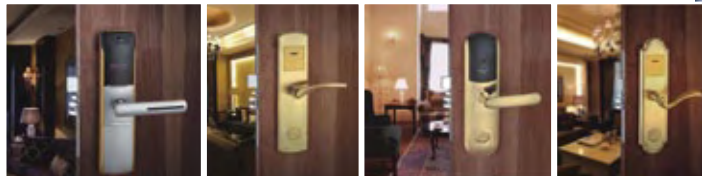

Ainsi, nous aurons en peu de temps, les accès contrôlés par cartes à puce compatibles avec tout autre accès IQ Multiprox, à la fois en ligne et hors ligne.

El modelo de cilindro IQ-C Standalone está indicado para clientes particulares, y con usuarios limitados y con poca rotación. Mediante la tarjeta master podremos dar de alta o de baja a los usuarios en el mismo dispositivo, sin necesidad de más accesorios que el cilindro IQ y las tarjetas.

The cylinder model IQ-C Standalone is suitable for private customers, with limited users and with little rotation. Using the master card we will be able to subscribe or unsubscribe users without additional accessories, just the IQ cylinder and the cards.

Le modèle de cylindre IQ-C Standalone est indiqué pour les clients privés, et avec les utilisateurs limités et avec peu de rotation. En utilisant la carte master, on pourra inscrire ou désinscrire aux utilisateurs dans le même appareil, sans équipement supplémentaire, uniquement que le cylindre IQ et les cartes.
